

Digital Agency DEVELOPMENT & DESIGN

Expand digital presence. One sprint at a time.

Bespoke software solutions

Pioneering Customized Digital Solutions with CodeWith — Custom Solutions, Global Impact

At CodeWith, we create digital ecosystems. Our expertise lies in creating bespoke software systems that not only meet, but exceed the expectations of our demanding clients. With an extensive technology background, we specialize in transforming ambitious ideas into scalable, efficient and state-of-the-art solutions.

IoT Cross-platform System

Discover CodeWith's IoT system: A unified, user-friendly app for real-time sensor data across devices, enhancing user engagement and control. Our tailored solution ensures seamless, reliable monitoring for informed decision-making and operational excellence.

Smart Pet Care IoT System

We have developed a smart home system for pet lovers, combining modern IoT technology with comprehensive mobile applications (iOS & Android). The system enables easy remote control of pet care devices, complemented by a comprehensive administration panel for operators and dealers to oversee operations.
